In ten years, where do you see yourself professionally?

I see myself working as an analyst for a sports team. I hope to be traveling and being able to experience the culture of different sports.
THE 2016-17 ATHLETICS SEASON WAS ANOTHER SUCCESSFUL CAMPAIGN AND A GREAT TIME TO BE AN OHIO BOBCAT!

Through the hard work and dedication of our coaches, staff and administrators, we continue to work together to successfully develop the student-athlete as a person, student and athlete. Bobcat student-athletes have accomplished great success in the classroom, in the community and on the field of competition throughout the past year.

This annual report serves as a snapshot of another memorable year for Ohio Athletics and provides a platform for reflections on the accomplishments of our student-athletes as we prepare and plan for future success.

This past year, football advanced to the MAC Championship game and gave a top-25 team all they could handle. We had a wrestler win an individual MAC Championship and the baseball team captured the 2017 Mid-American Conference tournament title and advanced to the NCAA Championship for the second time in three years.

We are also excited about the progress of our capital campaign for the Sook Academic Center. This state-of-the-art facility will significantly enhance the student-athletes’ academic potential and would not be possible without your help.

Our success is a team effort. It requires the collective efforts of student-athletes, coaches, staff, university administration, supporters and fans.

Thank you for your continued support of Ohio Athletics and for helping us to make a positive and meaningful difference in the lives of over 400 student-athletes.

We look forward to creating more memories with you and celebrating even more successes in the upcoming season.

COMMUNITY SERVICE

**Athens Community Center - After School Program**
Ohio SAAC and the Athens Community Center After School Program partnered together to host monthly events with local Athens children during the after-school hours where children were able to participate in a one-hour instructional clinic for various sports including basketball, football, soccer, track and field and volleyball. Student-athletes were in charge of each station and teaching the proper skills to the After-School Program children.

**Athens Community Center -- Halloween Carnival**
Freshmen student-athletes helped at the annual Athens Community Center Halloween Carnival in October. The freshmen were responsible for facilitating various stations in the Community Center gym. The event was free and available to the local Athens Community. Student-athletes also passed out candy and played carnival games with the children.

**Ohio University BobcaThon**
Ohio Football and Soccer volunteered at the annual Ohio University BobcaThon to play with Ronald McDonald House residents and their families during the event. The student-athletes played games and danced with the residents during the 24-hour long dance marathon to raise money for Ronald McDonald House Charities. The BobcaThon fundraised over $40,000 in 2016-2017.

**Gift of Life Bone Marrow Registry**
As part of the Mid-American Conference Bone Marrow Registry Week, Ohio SAAC partnered with the Gift of Life bone marrow registry to get Ohio students swabbed for the national bone marrow registry. Coordinated by senior baseball player, Ty Black, Ohio student-athletes registered a total of 101 people.

MENTAL HEALTH AWARENESS

**MAC Mental Health Awareness Week**
Ohio SAAC organized five activities for student-athletes to participate in during the MAC’s third annual Mental Health Awareness Week. The week’s activities all helped to destigmatize mental health conditions and bring awareness to the issues both students and student-athletes face.

**Activities:**
- Tabling events at Baker University Center and Ping Center
- MAC Mental Health Summit
- Anti-Bullying Presentation at Athens Community Center
- Post-It Wall of Positivity at Peden Stadium
- Painted campus “Graffiti Wall” to advertise Mental Health Awareness Week

**Recess with Rufus — Morrison-Gordon Elementary**
Student-athletes and Rufus visited Morrison-Gordon Elementary during their Friday recess hour. Student-athletes and elementary students played football, kickball, four-square, and participated in every day recess activities to encourage physical activity and promote healthy choices for the elementary-aged children. Over 20 Bobcat student-athletes participated in the Recess with Rufus initiative.

**Rufus Reads -- West Elementary**
Bobcat student-athletes visited West Elementary to participate in the annual Rufus Reads event. Student-athletes visited 4 classrooms of various grade levels and read books to groups of elementary students. Rufus Reads is an opportunity for student-athletes to talk about their time spent as a student and as an athlete, as well as to reiterate the importance of academics.

**EDUCATIONAL PROGRAMS**

**Better Bystanders Program**
Ohio SAAC participated in the Ohio University Survivor Advocacy’s Better Bystanders program. The Better Bystanders program is used to educate Ohio University students about reducing sexual and gender-based violence via bystander intervention. The training is designed to be applied in any number of situations where there might be power-based violence or imminent high risk.

**Student-Athlete Speaker -- Dr. Derek Greenfield**
This year’s student-athlete speaker was Dr. Derek Greenfield. Dr. Greenfield was selected by SAAC to present his “Confronting Ourselves: Promoting Diversity, Cultural Competence, and Inclusive Excellence.” Dr. Greenfield’s message and participatory session challenged Ohio student-athletes to examine their own biases and work together to learn how to achieve inclusive excellence.

**CATSPYS**
The sixth annual CATPSYS was held at Memorial Auditorium to celebrate another outstanding year of Bobcat Athletics. Over 400 student-athletes, coaches, administrators, staff members, and guests attended the award show, which featured 12 awards to recognize the outstanding moments, players, and team highlights from the past season. This year’s program was hosted by sophomore volleyball player, Natalie Burchesky, and senior wrestlers, Sebastian Pique and Joel Shump.

WAYS OF GIVING

JOIN FOR THE FIRST TIME

The Ohio Bobcat Club serves as the fundraising arm of OHIO Athletics. Our mission is to provide financial assistance in the way of academic and operational resources to over 430 student-athletes and 16 varsity sport programs.

The Ohio Bobcat Club relies on the generosity of alumni and friends each year for annual contributions in support of OHIO Athletics. We aim to increase its base revenue and membership each year in order to keep up with the rising costs of running a successful athletics program.

To join the team and make a gift to support OHIO Athletics, please refer to the enclosed pledge form, call 740-593-1176 or visit www.ohiobobcatclub.com/give.

WAYS TO SUPPORT

OHIO BOBCAT CLUB ANNUAL FUND

Unrestricted gifts to the Ohio Bobcat Club Annual Fund are the most vital to Ohio Athletics. Gifts to the Annual Fund provide invaluable resources, which immediately impact and enrich the lives of our student-athletes.

The Ohio Bobcat Club encourages all members to give first to the Ohio Bobcat Club Annual Fund. As an avid supporter of Ohio Athletics, you may also show your support through the following opportunities. Please remember that gifts to specific sports, endowments or capital projects do not qualify you for Ohio Bobcat Club benefits.

SPORT-SPECIFIC GIVING

Through a sport-specific gift, fans can directly support any of our 16 programs. Sport-specific gifts help our teams and coaches fund expenses outside of their annual budgets.

CAPITAL PROJECTS

Gifts in support of capital projects play a pivotal role in the enhancement, construction and maintenance of first-class athletic facilities. Top-notch facilities are not just important for attracting the nation’s best and brightest student-athletes, but also equipping them with the best tools to pursue their scholastic and athletic goals.

ENDORSEMENTS

Establishing an endowment provides funding for future Ohio student-athletes. Endowments are permanently invested by The Ohio University Foundation, generating invested income that is used for the purpose you choose to support. A portion of the investment income is retained in the endowment’s principal each year, enabling it to grow in perpetuity and provide an enduring stream of income for the athletics department. Naming opportunities start at $25,000.

GIFT-IN-KIND

A gift-in-kind donation is one of personal property or services that are charitably gifted to The Ohio University Foundation.

PLANNED GIVING

Planned gifts are a method for donors to make arrangements to support charitable organizations in the future, while complementing financial and tax planning needs. Ask us how planned gifts such as Bequests, Retirement Plan Designations, Retained Life Estates, Charitable Gift Annuities or Charitable Remainder Trusts can help you and support our student-athletes!

MATCHING GIFTS

Many companies provide matching gift programs for employee contributions. Ask your personnel office about your employer’s matching gift policy, and double or triple your dollars to the Ohio Bobcat Club when you submit your company’s matching gift form. Please visit www.ohio.edu/advancement/options.cfm for a list of participating companies in the matching gift program.

GIFTS OF STOCK

Gifts of appreciated stock, bonds or mutual funds held for more than one year can provide special tax advantages. The Ohio Bobcat Club is available to assist anyone interested in gifting stocks or bonds.

2016 JOYCE JULIUS & ASSOCIATES MEDIA EXPOSURE ANALYSIS

To quantify the value of the media exposure provided by football, the Mid-American Conference secured the services of Joyce Julius (www.joycejulius.com), a national leader in marketing research for more than 30 years, to evaluate selected games throughout the conference. Three of Ohio Football’s 2016 nationally televised football games were among those evaluated. Ohio Athletics subsequently requested an additional evaluation of the 2016 Dollar General Bowl from this internationally respected company, whose expertise has been utilized by the NFL, MLB, NBA, NASCAR and the NCAA.

Athletics serves as a key branding vehicle for the institution, providing in excess of $24 million in identified media value for just four of the fourteen football games that were played in 2016. If the four games specifically evaluated by Joyce Julius were combined with the five remaining nationally televised football contests (plus the multiple opportunities for exposure provided by other sport programs), Ohio University realized a conservative estimate of more than $35 million in media exposure value due to its athletic program in 2016-17.

ADDITIONAL MEDIA COVERAGE OF OHIO ATHLETICS:

- ESPN (87 million homes) and CBS Sports Network (60 million homes) coverage of our men’s and women’s basketball teams.
- ESPN3 worldwide coverage of home games for men’s and women’s basketball, volleyball and wrestling.
- Regional radio coverage on the Ohio Bobcats Radio Network, that which reaches all around the world through TuneIn radio, website streaming and statewide through IMG network stations.
- Website and social media coverage of our teams.
- National, regional and local media coverage of our teams.
Ohio University experienced record enrollment growth of 9% the year following the historic 2012 NCAA Sweet 16 run and back-to-back bowl game wins in the 2011 Famous Idaho Potato Bowl and 2012 Independence Bowl. While many factors contribute to enrollment increases, it is reasonable to include the unprecedented positive national television coverage of these athletic events as a contributing factor.

A strong, well-respected and recognizable brand assists Ohio University in capturing the attention of prospective students, faculty and staff. Athletics is certainly not the only component of our university brand, however it does provide significant and consistent exposure that connects the public to our university. That valuable exposure and engagement leads to strong brand recognition, which in turn assists with university marketing, recruiting and enrollment efforts.

The direct institutional support to Ohio Athletics represented just 2.38% of the total institutional expenditures in 2014–15. To further quantify the value of Ohio University’s investment in athletics, it is important to recognize the actual net cost of athletics to the campus. The following data demonstrates that the net direct institutional support provided to athletics represents just 1.18% of overall Ohio University institutional expenditures, a very small investment for the tremendous amount of benefit that athletics provides the university.

**UNRESTRICTED BASE OPERATIONAL EXPENSES**

Of the $16.35 million received in direct institutional support, $9.15 million represents athletics unrestricted base funding. Of this amount, nearly $1.0 million is reinvested back to university units for provided services from transportation and parking, facilities, culinary services and printing.

**SCHOLARSHIP EXPENSES**

Athletics received $7.2 million in scholarship support. Of this amount, $5.5 million was reinvested back to the university in the form of tuition, fees, campus housing and dining services.

**TUITION REVENUE**

Recruited student-athletes that are either non-scholarship or on partial scholarship pay $1.9 million in tuition, fees and room and board to the university.

Financial information reflects actual expenditures per the 2014–15 NCAA Statement of Revenues & Expenses completed and submitted by Ohio University Vice President of Finance & Administration.
