About
This girls’ soccer clinic is designed for high school female student-athletes (must have graduated 8th grade) who have an interest in playing collegiate soccer. Players will get a glimpse into the training of collegiate women’s soccer players by working with current college soccer coaches. By the end of the clinic players will hopefully gain some technical and tactical understanding of what it takes to play college soccer. The goal of the clinic is to help prepare student-athletes for the next level.
