Dear Wesleyan Student-Athlete:

As a member of a varsity athletic team it is your responsibility to become familiar with all of the policies and procedures of our athletic department. In addition to providing valuable information to you as a student-athlete, it also contains information that you as a team member are responsible to know.

It is in your best interest to review the handbook and if you have any questions about the information contained within, please consult your head coach or a member of the athletic department administration.

Finally, it is important to recognize that it is a privilege to be a member of a Wesleyan varsity team. Along with the opportunity to participate in athletics is the responsibility to always conduct yourself in a manner that reflects positively on both your team and our university. Whether you are competing in practice or an athletic contest, on campus or away on a team trip, in a classroom or in your dorm, you represent the Department of Athletics at Wesleyan University. Please keep this in mind and always be accountable to your teammates, coaches and most importantly YOURSELF!

With Cardinal Pride,
Mike Whalen
MISSION STATEMENT

In the pursuit of excellence, the Athletic Department strives to be the most innovative and successful athletic program in the prestigious New England Small College Athletic Conference (NESCAC) and a leader at the national level. Wesleyan University pursues excellence in all of its programs. Athletics, as an integral part of the overall educational process, is uniquely positioned to enhance a liberal arts education. Wesleyan coaches share the same goal as the entire Wesleyan community: to transform the lives of our students. To achieve this goal, the University is committed to support our highly trained and dedicated faculty-coaches who practice their craft in state-of-the-art facilities.

The Wesleyan Athletic Department supports a broad range of intercollegiate teams that encourage scholar-athletes to develop their skills and themselves to their full potential and to benefit from the lessons learned from perseverance, competition, sacrifice and teamwork. The University believes that successful intercollegiate teams serve to build a sense of spirit and community on campus and are a source of institutional pride for our alumni.

The Athletic Department also provides a wide array of health and wellness courses and lifetime skill activities that encourage students to develop the habit of leading healthy and balanced lives.

PHILOSOPHY

Wesleyan University prepares students to face a rapidly changing world with confidence and a sense of responsibility to make the world a better place. To that end, the Athletic Department views its interactions with students as opportunities to help them discover, develop and test their skills to create positive change. Through the pursuit of healthy habits and participation in competitive intercollegiate athletics, Wesleyan scholar-athletes embrace the level of commitment necessary to achieve their individual goals, aware of the need to bring out the best in others, successful on the field of play and in the classroom and practiced in the art of leadership. It is, in fact, the University's expectation that the men and women who participate in our athletic program will be exceptionally prepared to excel, contribute, and lead in their communities and beyond.

VALUE STATEMENT

In order to achieve our institutional mission and have successful athletic teams, Wesleyan scholar-athletes are guided by core values:

Teamwork: We work collaboratively and we work hard in a cooperative spirit.
Respect: We respect ourselves and others and embrace our diversity.
Balance: We commit ourselves to our athletic endeavors while recognizing the importance of academic pursuits and community involvement.
Accountability: We hold ourselves and each other accountable for our words and our actions.
Citizenship: We are responsible, caring, and active citizens within and beyond the Wesleyan community.

Integrity: We have a high regard for truth, play according to the rules, strive to act in ethical ways and are sincere in our actions.

Humility: We are grateful for our opportunities and mindful that our participation in athletics is a privilege and not an entitlement.

Sportsmanship: We are gracious competitors regardless of the final score and conduct ourselves with dignity under pressure and in the face of adversity.

**ALCOHOL POLICY**

Wesleyan athletic team members are an integral part of the Wesleyan community and, therefore, responsible for their actions as outlined in the Wesleyan Code of Non-Academic Conduct. Team members are governed by these rules and regulations both when on the Wesleyan campus and when involved in off-campus team functions.

Particular attention is called to the policies regarding the use of alcohol in the Wesleyan Student Handbook. Included within the standards of conduct is the statement, “The University prohibits the underage and unlawful possession, use, or distribution of illicit drugs and alcohol by students or by employees on university property or while participating in any university-sponsored activity.” In addition to this adherence to Federal, State and local alcohol policies, the following policies pertaining to alcohol have been developed by the Department of Physical Education and Athletics. An important purpose of the alcohol policy is to enhance athletic performance and to facilitate safe and enjoyable participation in team functions by all team members by eliminating the use of alcohol.

1. **Team Functions - There will be no use of alcohol by any team member during any Wesleyan varsity intercollegiate team function.** A team function includes, but is not limited to the following events:
   
   a) Contests  
   b) Practices  
   c) While being transported in team buses, vans or cars  
   d) Team trips including extended travel during vacation periods and overseas trips. There will be no use of alcohol by any team member from departure until conclusion of the trip.  
   e) Team banquets, break-up parties on or off-campus, as well as, parties to which all team members are invited, in or out of season.

2. **Stricter Guidelines -** A coach and team can set stricter guidelines, but it is the responsibility of the head and assistant coaches to enforce the alcohol policy.

3. **Disciplinary Action -** Disciplinary action is at the discretion of the head coach in consultation with the Athletic Director. The Wesleyan administration may also be involved in discussing appropriate disciplinary action, but team members are reminded that the possibility of further University sanctions exists if a student is also in violation of the University Code of Non-Academic Conduct.
TEAM INITIATIONS AND HAZING POLICY

Varsity and club sport team initiations, which include hazing, are dangerous to the safety of the student-athletes and are prohibited. Also, any varsity team event that is organized by team members that includes the use of alcohol is a violation of the athletic department alcohol policy.

Team initiations that are intended to create team spirit or a bonding of team members are not inherently bad. However, often these events include some ritual or tradition that includes excessive drinking or unsafe anti-social behavior. Most often, these events are to indoctrinate first year team members into the team. These individuals are usually under 21 years of age, and providing them with alcohol is a violation of the State of Connecticut laws and the Wesleyan University Code of Non-Academic Conduct. Students violating this code are subject to disciplinary actions by the Student Judiciary Board. Team initiations may also place team members in violation of the anti-hazing law of the State of Connecticut.

Team initiations that include any act, whether physical, mental, emotional or psychological, which subjects another person, voluntarily or involuntarily, to anything that may abuse, mistreat, degrade, humiliate, harass or intimidate him/her, or which may in any fashion compromise his/her inherent dignity as a person will be considered as hazing. In addition, any requirement by a member of an organization, which compels another member to participate in any activity, which is against Wesleyan University’s Code of Non-Academic Conduct or state/federal law will be defined as hazing.

Coaches are to inform team members well before the beginning of the season not to hold events that violate the team hazing policy. Severe sanctions will be imposed on teams found in violation of the department’s team hazing policy.

Non-Hazing Examples-please see your coach for additional ideas

- Participate in a leadership retreat/weekend with a ropes course and teambuilding activities
- Develop a community volunteer service project for the team
- Create a senior recognition ceremony
- Sponsor/host a career skill development and planning workshop for all team members

- Invite faculty members, alumni or a speaker to lunch with new team members and/or the whole team
- Host a dinner and movie for the new team members and/or the whole team

- Host a fathers, mothers or family & friends weekend
- Participate as a team in a campus event or host a campus/community event to meet the team members

- Host the president to speak about the campus and his role and understanding of the athletic community
- Develop and create a parents alliance for the team
WESLEYAN UNIVERSITY HAZING POLICY

Consistent with state law, national fraternal policies and athletic conference guidelines, hazing is prohibited at Wesleyan University. The term "hazing" shall mean any activity or method of initiation into any student organization, whether on public or private property, that could reasonably produce undue mental or physical discomfort, harassment, ridicule or endanger the participants. An activity may be considered hazing regardless of consent or willingness to participate in the activity.

Consistent with the definition above, the following activities have typically been identified as hazing activities: use of alcoholic beverages or other drugs; paddling or branding; creation of excessive fatigue; physical or psychological shocks; quests, treasure hunts, scavenger hunts, or road trips; wearing of public apparel which is conspicuous and not in good taste; engaging in public stunts and buffoonery; degrading or humiliating games and activities; any other activities which are not consistent with University regulations and policies as well as local, state and federal laws.

There are many activities in which members of student groups may voluntarily participate that foster camaraderie and team-building, promote unity and a sense of belonging, and build self-confidence and self-esteem. Examples of such activities include: attending pre-season or organizational training sessions; administering supervised testing for skills, endurance or performance; sponsoring a skit night; wearing similar clothing as a symbol of unity; doing community service; completing a ropes course; participating in a supervised group trip.

Because it is not always clear which activities are acceptable and which constitute hazing, students are encouraged to consult with advisors, coaches, and/or Campus Programs or Student Services staff members in advance of the event.

Community members who have experienced hazing or have information about an alleged hazing incident should consult with the Office of Public Safety, Athletics Director, or Campus Programs or Student Services staff.

NESCAC PRESIDENTS’ STATEMENT ON ABUSIVE DRINKING AND HAZING

In addition to being partners in athletic competition, the 11 colleges and universities comprising the New England Small College Athletic Conference (NESCAC) are united in efforts to provide safe environments in which students may mature intellectually and socially.

Recognizing that social life plays an important role in the college experience, each campus has increased its efforts to encourage students to make responsible choices. Each school takes a strong stand against substance abuse, including alcohol. While the vast majority of students at NESCAC institutions who choose to drink alcohol do so responsibly, each school has disciplinary and educational programs in place for students who misuse alcohol and other substances.

Additionally, all of the conference schools expressly prohibit hazing.

NESCAC member institutions: Amherst College, Bates College, Bowdoin College, Colby College, Connecticut College, Hamilton College, Middlebury College, Trinity College, Tufts University, Wesleyan University and Williams College.

(b) A student-athlete who participates in any sports wagering activity, through the Internet, a bookmaker or a parlay card shall be ineligible for all regular-season and postseason competition for a minimum of a period of one year from the date of the institution’s determination that a violation has occurred and shall be charged with a loss of a minimum of one season of eligibility. OVERNIGHT/HOST RESPONSIBILITIES

From time to time you may be asked by your coach to serve in the capacity as a host to a prospective student-athlete during his or her visit to campus. You must take this responsibility seriously and be sure to ask your coach about any concerns you may have about hosting a recruit for your team. The following information will be provided to your prospective student upon his or her arrival to campus. Please read this and understand that your recruit is obliged to comply with all NESCAC, NCAA, and university regulations, and State of Connecticut laws while on campus. In the hosting of prospective students, Wesleyan team members are not to provide the recruit with alcoholic beverages or escort them to events where alcohol is being served. Wesleyan students providing underage recruits with alcohol may be subjected to university disciplinary actions and the recruits that are involved in the underage consumption of alcohol may jeopardize their opportunity to attend Wesleyan.

Visiting students, like enrolled students, are responsible for their behavior as adults within the expectations described below.

I am aware that participants in on-campus visitation programs are required to abide by Connecticut state law and the Code of Non-Academic Conduct which governs students enrolled at Wesleyan University. I acknowledge that Connecticut law prohibits all use of illegal drugs and prohibits the drinking of alcoholic beverages by persons under 21 years of age.

The name of this organization shall be “Wesleyan University Student-Athlete Advisory Committee.”

1.2 Purposes

The Wesleyan Student-Athlete Advisory Committee (SAAC) is a group of student-athlete representatives who work with the administration to improve and support Wesleyan’s athletic community. SAAC’s goals are to generate a student-athlete voice in dialogue with the faculty, the student body and the NESCAC league. On a national level, SAAC responds to NCAA legislation, as well as, encouraging student-athlete community service efforts.

Bylaws, Article 2

2.1 Membership

2.1.1 Composition

The committee will be composed of one, two or three representatives from every team-both men’s and women’s. Coaches and the existing SAAC members will nominate/appoint committee members with head coaches of the individual sports holding veto power. Every class year needs to be represented. First year student-athlete representatives can be added as full voting members no earlier than the end of the fall semester. The juniors and sophomores will be expected to fulfill a two or three-year commitment to the committee. There will be two co-presidents (one male, one female) appointed by the previous year’s presidents. It will be the presidents’ discretion on whether vice president(s) will be needed to aid them in leading the group. If so the presidents will consult on and decide on the selection. It is expected that the committee will be gender equal and that no sport will have more than three student-athletes on the committee. When student-athletes are appointed or elected to the committee they should understand and agree to the expectations described below.

2.1.2 Duties and Responsibilities

The committee will meet at least once a month in its entirety. The Executive board and Subcommittee chairs will occasionally meet on a weekly basis. At the first meeting the
committee will prioritize the issues it will deal with during the year. Members will be assigned duties to be completed between meetings. Committee members will also be responsible for gathering outside input from other student-athletes pertaining to current issues and concerns. Attendance of outside individuals who are concerned with the topic of a given meeting will be encouraged. If any member misses more than two consecutive meetings of Wesleyan SAAC they are subject to dismissal.

2.2 Subcommittees

There will be three subcommittees: Community Outreach, Fundraising and the Cardinal Pride Committee. The committees will be chaired by a one or two members elected at the end of the previous year or the beginning of the new school year.

2.2.1 Cardinal Pride Committee

2.3 Executive Board

There will be two co-presidents (one male, one female) appointed by the previous year’s presidents, vice-presidents (if desired by presidents), NESCAC SAAC representatives (no more than four) and the chairs of the three subcommittees. There will also be two – four members designated as NESCAC SAAC meeting representatives who will be responsible for attending the fall and winter NESCAC meetings. If for some reason these representatives cannot make one of the meetings, the duty will then fall to one of the co-presidents or vice presidents. The NESCAC SAAC meeting representatives will be chosen by the two co-presidents and their names will be sent to the NESCAC office no later than September 12th.

2.4 Advisors

There will be one advisor for this committee along with the Athletic Director. The advisor needs to be included on all electronic or other types of messages to the group. The advisor or NESCAC SAAC advisor needs to be consulted before proposals or emails are sent to the NESCAC SAAC group as a whole.
2.5 Wesleyan Student Assembly Representation

A student-athlete who is also a WSA representative will serve as SAAC’s liaison to WSA, keeping both groups informed of each other’s agendas and attempting to find events for the groups to collaborate on. If there is not a student-athlete that is a member of WSA, than a member of WSA will attend SAAC’s monthly meetings and present the WSA agenda regarding athletics and other related issues to the SAAC. The WSA member will not have voting rights within SAAC.

2.6 Outside Group Representation

SAAC members who represent other groups on campus, such as Team Impact or Athletes C.A.R.E. will be designated as the liaison for those groups and allowed to discuss current events with their respective groups at the end of SAAC meetings as time allows.

**PERMISSION TO NOT TRAVEL WITH THE TEAM**

For safety, team unity, and effective pre-game organization, it is important that student-athletes travel in university supplied transportation and stay overnight in accommodations that are supervised by head or assistant coaches. However, often for good reasons, students may request permission to travel to or from an away contest independent of the team. In these instances, it is essential that the student have the written permission of the coach and athletics director prior to traveling independent of the team.

To receive authorization to travel independent of the team, the requesting athlete must adhere to the guidelines as specified below:

1. Permission to travel independent of the team must be requested of the coach at least two days prior to the contest.
2. The Permission to Travel form is obtained from the coach and completed by the student-athlete. The student-athlete must then obtain a signature from the coach. The form is also available online [click here] (not available for mobile downloads).
3. The Athletic Director will review the form and will not approve the request unless it has been approved and the permission to travel form signed by the coach.

Permission to Travel forms will be kept on file until the conclusion of the season and then discarded. A copy of the Permission to Not Travel with the Team is included in the appendix of this handbook.

**NESCAC VOLUNTARY OUT-OF-SEASON ACTIVITIES**

NESCAC institutions support all students in their desire to engage in activities that promote health and fitness. Students at NESCAC schools who participate in varsity athletics will often look to engage in athletic activity out-of-season. Most have played year around before coming to college. It’s natural and healthy for them to remain physically active. At the same time, our schools offer a wonderful array of opportunities and those on teams deserve the chance to explore new and different options. Activity out-of-season is viewed positively so long as it abides by NESCAC regulations and one’s participation is never seen as a condition for making a team.
NESCAC rules state that all out-of-season activities must be strictly voluntary. Out-of-season is defined as dates not inclusive in the period designated in Sec. II.C.1 [of the NESCAC manual] as the practice starting dates and last conference approved contest of that athletic season.

The following guidelines have been developed to assist member institutions in the implementation and application of the Conference policy governing out-of-season activities. They must be communicated by the Director of Athletics to all coaches, captains and the faculty on an annual basis and to team members annually by the respective coaches and a member of the athletic administration.

Guidelines

- All out-of-season activities must be **completely voluntary** and should never conflict with any academic obligation.
- There can be no scripting of activity, no attendance taken, no reporting to the coaching staff, no implication that participation can ever be a condition of making a team, and no involvement of any kind by any member of the coaching staff.
- Team captains and members may not coach or direct practices on or off campus. These activities are to be structured in as a “free play” environment. They are not to duplicate a practice that would be led by a coach. If a pick up game is open to the rest of the student body, team members may participate.
- Facilities may not be reserved for a team activity out-of-season. In a multipurpose facility (i.e., field house) this rule would not preclude scheduling of activity limitations for safety reasons. In such instance, however, the activity may not be restricted to varsity candidates and must be open to all members of the student body. Procedures established for the general college community must be followed in the scheduling of such facilities.
- Off-campus facilities may not be rented or reserved for a varsity team activity, however an institution may arrange for off-campus space for recreational activities.
- Students may not use or be issued college-owned apparel or equipment out-of-season, unless it is available to the college community in general.
- Voluntary strength and conditioning programs are permitted. Coaches may design voluntary workout programs for their players. Sport coaches are not permitted to require, direct, or supervise these activities out-of-season. Strength and conditioning personnel may monitor voluntary individual workouts for safety purposes.
- There are to be no contests or scrimmages by teams against outside competition out-of-season.
- Insurance policies written to provide coverage for accidents occurring from intercollegiate athletics may only cover accidents that occur when students participate in events that are permitted as an in-season activity under NESCAC guidelines. Also, students injured in out-of-season activities will not be covered by NCAA catastrophic injury insurance.
- Permissible out-of-season activities include team community service activities, educational programming including leadership, alcohol and hazing education. Students may volunteer to work in sport-based clinics for youth provided clinics are conducted when classes are not in session and clinics are conducted not more than twice in any given sport in an academic year.
- Violations of this policy will be handled according to established conference guidelines and may result in penalties or sanctions against individuals and/or teams.

A season of participation shall not be counted when a student-athlete participates in a preseason scrimmage or preseason exhibition conducted prior to the first contest in the traditional segment following the student-athlete’s initial participation at that school, or when a student-athlete participates in the one date of competition during the nontraditional segment in baseball, field hockey, lacrosse, soccer, softball and volleyball. [Bylaw 14.2.4.1.1]

VARITY TEAM FUNDRAISING

Fundraising by sports teams normally is conducted to support the following activities:

- Spring trips during spring vacation
- Special trips during the season to play teams outside of the Metro/New England region
- To provide the team with equipment that is not a part of the department budget
- To provide opportunities during away contests that are not funded by the department’s funds

The raising of funds is accomplished in a number of ways. Team projects are an important vehicle for fundraising. However, in order to insure the success of this type of fundraising, it is essential that the head coaches communicate to the athletics director about their plans in this area so that teams will not duplicate efforts, therefore reducing the opportunity to have a successful fundraising event for all groups and to be certain that the fundraising event is in compliance with NCAA, NESCAC and Athletic Department regulations.

All fundraising activities must be approved by the athletics director and reported to him by use of the team fundraising form that can be found in the appendix of this handbook.

STUDENT-ATHLETE EVALUATION OF COACHES

At the end of each season athletic administrators will administer coaching evaluations to each team. In completing the evaluations, please adhere to the following guidelines:

1. Evaluations should be completed for the head coach and all full-time assistant coaches. Evaluations are to be completed within two weeks of the last contest of the season.

2. The evaluations are to be completed in an appropriate setting where the athletes have time and space to complete the evaluations. An indoor space should be used.

3. The evaluation process will be proctored by the athletics director or his designee.

4. Before distributing the evaluations to the student-athletes, the administrative designee will read the statement emphasizing the importance that the evaluations serve and request that each team member give serious thought to their comments.

5. Once the evaluations are completed, they are to be collected by the proctor or designated representative and placed in an envelope, which should then be sealed and returned to the athletics director. Sealed envelopes containing the evaluations may be placed in the athletics director’s mailbox.
EQUIPMENT DISTRIBUTION - STUDENT-ATHLETES

The following are rules related to equipment distribution in the Physical Education Department:

1. Keep your locker locked at all times.
2. Keep your locker room as neat as possible. **Equipment repeatedly left on the floor or benches will be collected by the equipment room personnel.** Please use the wastebaskets.
3. Do not clean your cleats on the walls.
4. Each player is responsible for his/her own equipment, regardless if it is lost or stolen.
5. Hand in your practice equipment right after your practice. Please make sure your laundry bag is tightly closed. Do not put personal laundry in your laundry bag.
6. Return game equipment immediately after each home contest.
7. If the equipment manager is not in the cage when you return from an away contest, please put your equipment in your locker and the equipment manager will pick it up the next morning.
8. You will be billed for any equipment that is lost or stolen.
9. At the conclusion of the season student-athletes have two (2) days to remove personal belongings from their locker. After the two (2) days, **ALL** items will be removed and the locker will be reassigned.
10. If a student-athlete voluntarily leaves a team or is asked to leave by the coach, the student-athlete must return all Wesleyan athletic equipment within two (2) days or it will be removed by the equipment room personnel. All personal items are to be removed within five (5) days or it will be removed by the Physical Education Department personnel.

HEAD STRENGTH & CONDITIONING COACH/FITNESS CENTER COORDINATOR

The Head Strength and Conditioning Coach is responsible for the development and implementation of strength and conditioning programs for Wesleyan’s twenty-nine NCAA Division III intercollegiate athletics teams. Other duties include: instruction and supervision of strength and conditioning programs for athletes, teaching strength classes to student body population, counseling athletes, students, and employees on strength, fitness, and nutrition, supervision of fitness center and weight room, handling of all administrative tasks for fitness center and weight room, equipment maintenance, purchasing of equipment, supervising and training of personnel. Please take advantage of this athletic department benefit.

Athletes are reminded that a series of instructional strength training and video clips are available by a link from the Wesleyan Athletics home page. Please take advantage of this valuable instructional aid.

ATHLETIC INJURY CARE

A. The athletic injury care staff will perform any and all duties that are directly and/or indirectly related to the functions of a comprehensive athletic injury care program.

B. In so far as the members of the athletic injury care staff are involved in the evaluation and treatment of possible injuries incurred by student-athletes and general medical conditions related to athletic participation, they receive supervision and guidance from several physicians. These physicians are Dr. David Hergan and Dr. Adam Perrin. These
physicians will work in cooperation with Wesleyan Health Services. Athletes’ medical status and eligibility to play or practice are made exclusively by the team physician and University Health Services.

C. The athletic injury care staff shall provide the injured athlete with immediate and temporary care, and when necessary, refer students to Middlesex Hospital Emergency Department. Thereafter, the athletic injury care staff will administer any follow-up care necessary for the return of the student-athlete to full activity.

D. As an integral part of the total medical care of the athlete, the athletic injury care staff assists in the prevention, correction or alleviation of pain, disability and deformity caused by injury.

E. The athletic injury care staff plans, organizes and administers tests, measurements and therapeutic modalities as prescribed by the team physician as a part of the athletic injury care program.

**SCHEDULING - ATHLETIC INJURY CARE**

A. The athletic injury care facility is open Monday through Friday from 9:00 a.m. until 3:00 p.m. by appointment for treatments and evaluations. Evaluations are done as time permits in the afternoon.

B. Appropriate care will be provided for all athletes whenever possible. In-season teams will be given priority over out-of-season teams. If instances arise where there is a necessity for athletic injury care coverage for an out-of-season team, special arrangements will have to be made by the coach with the athletic trainer.

C. When appropriate, the athletic injury care facility will be open before, during and after contests and/or practices according to the needs of the teams that are in-season.

D. Since more teams will normally be in-season than there are full-time athletic trainers on the staff, direct coverage of team practices and contests by athletic injury care staff members will be arranged on a priority need basis by the athletic trainer.

**MEDICAL HISTORY - ATHLETIC INJURY CARE**

Before the start of each team's formal practice sessions, each intercollegiate athlete competing for a Wesleyan athletic team will fill out a medical history form for the Athletic Injury Care staff. The purpose of this medical history form is to screen athletes before participation in a particular sport. At this time any limiting factors will be investigated. Another important reason for this paperwork is to identify any special trait or problem that might lead to a medical condition during participation (example: diabetes, allergies, medications, etc.). This information also provides emergency medical information and family contact persons for each athlete. Athletes should go to the Athletic Injury Care website (http://athletics.wesleyan.edu/Performance_Care/index) and click on Medical Clearance Information tab prior to their season and follow the directions provided. Once the form is completed, it becomes a part of the athlete's permanent file in the athletic injury care office. Each year the athlete will update his/her information by completing the online medical history form. All information remains on file for five years past
their class year and is then destroyed. An athlete will not be allowed to participate in intercollegiate practices until this information is on file with the athletic injury care staff.

**SICKLE CELL TRAIT - ATHLETIC INJURY CARE**

**What is Sickle Cell Trait?** Sickle cell trait is not a disease. Sickle cell trait is the inheritance of one gene for sickle hemoglobin and one for normal hemoglobin. Sickle cell trait will not turn into the disease. Sickle cell trait is a life-long condition that will not change over time.

- During intense exercise, red blood cells containing the sickle hemoglobin can change shape from round to quarter-moon, or “sickle.”
- Sickled red cells may accumulate in the bloodstream during intense exercise, blocking normal blood flow to the tissues and muscles.
- During intense exercise, athletes with sickle cell trait have experienced significant physical distress, collapsed and even died.
- Heat, dehydration, altitude and asthma can increase the risk for and worsen complications associated with sickle cell trait, even when exercise is not intense.
- Athletes with sickle cell trait should not be excluded from participation as precautions can be put into place.

**Do you know if you have sickle cell trait?** People at high risk for having sickle cell trait are those whose ancestors come from Africa, South or Central America, India, Saudi Arabia, and Caribbean and Mediterranean countries.

- Sickle cell trait occurs in about 8 percent of the U.S. African-American population, and between one in 2,000 to one in 10,000 in the Caucasian population.
- Most U.S. states test at birth, but most athletes with sickle cell trait don’t know they have it.
- The NCAA recommends that athletics departments confirm the sickle cell trait status in all student-athletes.
- Knowledge of sickle cell trait status can be a gateway to education and simple precautions that may prevent collapse among athletes with sickle cell trait, allowing you to thrive in your sport.

**How can I prevent a collapse?**

- Know your sickle cell trait status.
- Engage in a slow and gradual preseason conditioning regimen.
- Build up your intensity slowly while training.
- Set your own pace. Use adequate rest and recovery between repetitions, especially during “gassers” and intense station or “mat” drills.
- Avoid pushing with all-out exertion longer than two to three minutes without a rest interval or a breather.
- If you experience symptoms such as muscle pain, abnormal weakness, undue fatigue or breathlessness, stop the activity immediately and notify your athletic trainer and/or coach.
- Stay well hydrated at all times, especially in hot and humid conditions.
- Avoid using high-caffeine energy drinks or supplements, or other stimulants, as they may contribute to dehydration.
- Maintain proper asthma management.
- Refrain from extreme exercise during acute illness, if feeling ill, or while experiencing a fever.
- Beware when adjusting to a change in altitude, e.g., a rise in altitude of as little as 2,000 feet. Modify your training and request that supplemental oxygen be available to you.
- Seek prompt medical care when experiencing unusual physical distress.

**CONCUSSION - ATHLETIC INJURY CARE**

**WHAT IS A CONCUSSION?**

A concussion is a brain injury that:
- Is caused by a blow to the head or body.
  - From contact with another player, hitting a hard surface such as the ground, ice or floor, or being hit by a piece of equipment such as a bat, lacrosse stick or field hockey ball.
- Can change the way your brain normally works.
- Can range from mild to severe.
- Presents itself differently for each athlete.
- Can occur during practice or competition in ANY sport.
- Can happen even if you do not lose consciousness.

**HOW CAN I PREVENT A CONCUSSION?**

Basic steps you can take to protect yourself from concussion:
- Do not initiate contact with your head or helmet. You can still get a concussion if you are wearing a helmet.
- Avoid striking an opponent in the head. Undercutting, flying elbows, stepping on a head, checking an unprotected opponent, and sticks to the head all cause concussions.
- Follow your athletics department’s rules for safety and the rules of the sport.
- Practice good sportsmanship at all times.
- Practice and perfect the skills of the sport.

**WHAT ARE THE SYMPTOMS OF A CONCUSSION?**

You can’t see a concussion, but you might notice some of the symptoms right away. Other symptoms can show up hours or days after the injury. Concussion symptoms include:
- Amnesia.
- Confusion.
- Headache.
- Loss of consciousness.
- Balance problems or dizziness.
- Double or fuzzy vision.
- Sensitivity to light or noise.
- Nausea (feeling that you might vomit).
- Feeling sluggish, foggy or groggy.
- Feeling unusually irritable.
- Concentration or memory problems (forgetting game plays, facts, meeting times).
- Slowed reaction time.
Exercise or activities that involve a lot of concentration, such as studying, working on the computer, or playing video games may cause concussion symptoms (such as headache or tiredness) to reappear or get worse.

WHAT SHOULD I DO IF I THINK I HAVE A CONCUSSION?
Don’t hide it. Tell your athletic trainer and coach. Never ignore a blow to the head. Also, tell your athletic trainer and coach if one of your teammates might have a concussion. Sports have injury timeouts and player substitutions so that you can get checked out.

Report it. Do not return to participation in a game, practice or other activity with symptoms. The sooner you get checked out, the sooner you may be able to return to play.

Get checked out. Your team physician, athletic trainer, or health care professional can tell you if you have had a concussion and when you are cleared to return to play. A concussion can affect your ability to perform everyday activities, your reaction time, balance, sleep and classroom performance.

Take time to recover. If you have had a concussion, your brain needs time to heal. While your brain is still healing, you are much more likely to have a repeat concussion. In rare cases, repeat concussions can cause permanent brain damage, and even death. Severe brain injury can change your whole life.

IT’S BETTER TO MISS ONE GAME THAN THE WHOLE SEASON.
WHEN IN DOUBT, GET CHECKED OUT.

INSURANCE - ATHLETIC INJURY CARE

When a student-athlete sustains an injury causing an insurance claim to be filed, the following steps are taken. The claim is filed against the student’s primary insurance policy first. Primary coverage is usually retained by the parent/guardian of the student-athlete or through the Wesleyan Student Insurance. After the claim has been submitted to the primary carrier, the student-athlete will receive an EOB (Explanation of Benefits). If there is a remaining balance and the injury was sustained as a result of participation in the student-athlete’s sport, a claim is initiated against the Wesleyan Athletics secondary policy. Primary insurance coverage is required by the NCAA and by Wesleyan University. The secondary policy has a $1,000 deductible. The deductible is considered on a per injury basis.

Click here for more information about the claim process.

PARTICIPATION IN POST-SEASON ALL-STAR CONTESTS

Students with no remaining eligibility in a sport may participate in post-season all-star contests providing they meet the following conditions:

- That the head coach of the sport informs the athletic director of the student’s intention to participate in the contest. The information provided to the athletic director must include the name of the sponsoring association or group and the date and location of the contest. If it is the intention of the student-athlete to use Wesleyan equipment in competing in the all-star contest, the student will be required to complete the waiver form prior to being issued
equipment by the coach or equipment room personnel. By signing the form the student releases Wesleyan from all liability associated with his/her participation in the all-star contest. Furthermore, the student will not be covered by NCAA catastrophic insurance if they are injured while participating in the all-star contest.

- Also, it is to be noted that it is not permissible for Wesleyan to provide transportation, per diem, or other forms of support for the student’s participation in an all-star contest.

**MEDICAL HARDSHIP WAIVER**

If you sustain a season-ending injury in the first half of any season in a particular sport you may qualify to request a medical hardship waiver from the Executive Committee of the NESCAC Conference.

Because Wesleyan University has graduate degree programs you may utilize any eligibility remaining in a particular sport while attending graduate school at Wesleyan in the academic year immediately following completing your bachelor’s degree requirements. You may also utilize a remaining year of eligibility in a fifth year when completing your bachelor’s requirements.

The standard for proving you had a season-ending injury in the first half of the season is very high. You must produce extensive contemporaneous medical documentation (see appendix) from your attending physician/physicians and Wesleyan’s Athletic Injury Care staff. If you are rehabilitating with our AIC staff you are responsible to make sure all of your treatment and rehabilitation visits are properly documented. All dates of injury, participation in all contests and practices, must be well-documented.

In the unfortunate circumstance of sustaining a season-ending injury, in any season, please ask your coach, AIC staff and/or an athletic administrator to assist you in preparing your documentation for an immediate or future request for such a waiver.

NCAA DIVISION III TRANSFER REGULATIONS

By Law 13.1.1.2 - Four-Year College Prospects. An athletics staff member or other representative of the institution’s athletics interests shall not make contact in any manner (e.g., in-person contact, telephone calls, electronic communication, written correspondence) with the student-athlete of another NCAA or NAIA four-year collegiate institution, directly or indirectly, without first obtaining written permission to do so, regardless of who makes the initial contact. If permission is not granted, the second institution shall not encourage the transfer. If permission is granted, all applicable NCAA recruiting rules apply. If an institution receives a written request from a student-athlete to permit another institution to contact the student-athlete about transferring, the institution shall grant or deny the request within seven business days (see Bylaw 13.02.1) of receipt of the request. If the institution fails to respond to the student-athlete’s written request within seven business days, permission shall be granted by default and the institution shall provide written permission to the student-athlete. Written permission may be granted by:

a) The first institution’s athletics director (or an athletics administrator designated by the athletics director); or

b) The student-athlete, if the student-athlete attends a Division III institution (see Bylaw 13.1.1.2.1).

By Law 13.1.1.2.1 – Self-Release. Using a form made available by the NCAA national office, a student-athlete who attends a Division III institution may issue, on his or her own behalf, permission for another Division III institution to contact the student-athlete about a potential transfer. The student-athlete shall forward this form to the director of athletics at the institution of interest. Contact between the student-athlete and institution may occur during the 30-day period beginning with the date the permission to contact form is signed by the student-athlete. An additional form must be issued for contact to occur or continue beyond the initial 30-day period.

By Law 13.1.1.2.1.1 – Privacy and Disclosure Requirements. During the initial 30-day period the institution in receipt of the form shall not notify the student-athlete’s current institution of the contact. At the completion of the initial 30-day period, if the student-athlete decides to transfer to the institution in receipt of the form, the institution in receipt of the form shall notify the student-athlete’s current institution within a seven-day period of the form’s expiration date that the self-release was issued. At the completion of the initial 30-day period, if the student-athlete decides not to pursue the transfer, the institution in receipt of the form shall not notify the student-athlete’s current institution of the contact at any time. If the student-athlete is undecided at the end of the 30-day period, the initial contact must remain private unless and until the
student-athlete issues a second permission to contact form. Upon receipt of the second permission to contact form, the institution in receipt of the form shall notify the student-athlete’s current institution within seven days that a second release was issued.

If you are considering transferring to another institution and would like to continue as a student-athlete in your intercollegiate sport or sports, please contact Kate Mullen, Associate Athletic Director at extension 2888 for your release documentation.

NCAA POSTGRADUATE SCHOLARSHIP PROGRAM

The NCAA awards up to 174 scholarships annually. The scholarships are awarded to student-athletes who excel academically and athletically and who are at least in their final year of intercollegiate athletics competition. The one-time non-renewable scholarships of $7,500 are awarded three times a year corresponding to each sport season (fall, winter and spring). Each sports season there are 29 scholarships available for men and 29 scholarships available for women for use in an accredited graduate program. The NCAA Postgraduate Scholarship nomination is submitted by the faculty athletics representative (FAR) or by a FAR designee.

Students who are at least in their final season of NCAA athletics eligibility or will not be using any remaining athletics eligibility can be nominated. Nominees must have a minimum grade-point average of 3.200 (based on a maximum 4.000) or its equivalent. A nominee must have performed with distinction as a varsity team member in the sport in which the student-athlete is being nominated. A candidate must have signified the intention to continue academic work beyond the baccalaureate degree and enroll in a graduate degree program on a part- or full-time basis at an academically accredited graduate or degree-granting professional school. The scholarships are one-time, non-renewable grants. The following deadline dates of applications are approximate and may vary a few days each year: Fall-January 30, Winter-March 30, and Spring-June 1.

Please see Kate Mullen, Associate Athletic Director for more information.

**** NCAA Ethnic Minority and Women’s Enhancement Scholarships ****

The goal of the enhancement programs is to increase the pool of and opportunities for qualified minority and female candidates in intercollegiate athletics through postgraduate scholarships. Thirteen scholarships to ethnic minorities and thirteen scholarships to women are available annually to college graduates who will be entering into the first year of their initial postgraduate studies. The applicant must be seeking admission or have been accepted into a sports-administration or other program that will help the applicant obtain a career in intercollegiate athletics, such as athletics administrator, coach, athletic trainer or other career that provides a direct service to intercollegiate athletics. Each award is valued at $7,500. Deadline for admission is mid-February.

******* NCAA Internship Program *******

The NCAA offers yearlong internships within several focus areas at the national office: Administrative services, championships and alliances, communications, education and community engagement, executive, governance and regulatory affairs. The NCAA internship is an on-the-job learning experiences for college graduates who express an interest in pursuing a
career in intercollegiate athletics administration. The application process is open from August 15, 2016 – September 23, 2016.

For more information please visit the NCAA website: www.ncaa.org.

**WALTER BYERS POSTGRADUATE SCHOLARSHIP PROGRAM**

In 1988, the NCAA established the Walter Byers Postgraduate Scholarship Program as a means of recognizing the contributions of the former executive director through encouraging excellence in academic performance by student-athletes. Under this program, one male and one female student-athlete annually will be awarded a postgraduate scholarship in recognition of outstanding academic achievement and potential for success in postgraduate study. It is intended that an individual named a Byers Scholar will be recognized as one who has combined the best elements of mind and body to achieve national distinction for his or her achievements, and promises to be a future leader in his or her chosen field of career service.

The Walter Byers Postgraduate Scholarship Program is separate and distinct from the NCAA Postgraduate Scholarship Program, which provides numerous annual awards with smaller stipends. The basic stipend for each Byers Scholarship shall be $24,000 for an academic year. The scholarship amount will be reviewed every two years so that the purchasing power of the award will remain reasonably close to the award as initially conceived in 1988. If the graduate school where the Byers Scholar is enrolled provides evidence of satisfactory performance and progress, the grant may be renewed for a second year. Therefore, in any single year, $96,000 worth of scholarships are awarded ($48,000 to the current year’s recipients and $48,000 to the previous year’s awardees for their second year of graduate school).

If you satisfy the qualifications listed below please contact your faculty athletics representative or chief academics officer about obtaining his or her nomination and the application packet.

----- Qualifications for the Walter Byers Postgraduate Scholarship -----

To be eligible for consideration, nominees shall:

- Have an overall cumulative grade-point average of 3.500 or better (based on a maximum 4.000), or the equivalent in other recognized grading systems;
- Have competed in intercollegiate athletics as a member of a varsity team at an NCAA member institution;
- Be a graduating senior or be enrolled in graduate study at an NCAA member institution;
- Have intentions of applying for admission into a graduate degree program at a properly accredited, nonprofit educational institution or into a post-baccalaureate professional degree program at a professionally accredited law school, medical school, or the equivalent, without restriction as to the national site of the institution;
- Be committed to work on a full-time basis toward a graduate degree or toward a post-baccalaureate professional degree;
- Have evidenced superior character and leadership;
- Have demonstrated that participation in athletics and community service has been a positive influence on the nominee’s personal and intellectual development. Relative success in athletics is important but not of overriding significance; and
- Enroll into a graduate degree program within five years of being named a Byers Scholar.

Use this form so you may contact another NCAA Division III college or university's athletics staff members (including coaches) about a possible transfer. This form does not allow you to contact athletics department staff members at NCAA Division I or Division II institutions.

Bylaw 13.1.1.2 states that:

“An athletics staff member or other representative of the institution's athletics interests shall not make contact in any manner (e.g., in-person contact, telephone calls, electronic communication, written correspondence) with the student-athlete of another NCAA or NAIA four-year collegiate institution, directly or indirectly, without first obtaining written permission to do so, regardless of who makes the initial contact. It is a privilege, not a right, to be a member of a Wesleyan team. Along with the opportunity to participate in athletics it is the student’s responsibility to conduct oneself in a manner that supports the team’s goals and behave in a manner that will reflect well on your team, your coach and Wesleyan. The purpose of this contract is to remind you that your participation is governed, in part, by the following athletic department policy. Further, by signing this form, you have acknowledged that you understand the wording and agree to abide by these important policies.

Team members that have not completed and signed this form will be prohibited from participating in the first scheduled game of the season and will not be allowed to practice or play after that date until the form is signed and returned to the athletic director’s office.

1. Alcohol Policy
I have read the athletics department alcohol policy contained in the Student Athlete Handbook (SAH) and agree to abide by it. I will not engage in the use of alcohol at team practices, contests, while being transported, on a team trip or at a team function. I understand that a violation of this policy will lead to disciplinary actions including possible dismissal from the team.

2. Hazing
I fully understand that Wesleyan does not tolerate hazing. I have read the hazing policy in the (SAH) and understand that any initiation activity must be cleared by the coach. Any activity considered to be hazing will result in severe sanctions that may include suspension or expulsion from the team, or that my team’s competitive schedule may be cancelled.

3. Honor Code
Academic integrity is among Wesleyan’s highest values and the affirmation of the honor code is a condition of enrollment. Integrity in academic work and on the “playing field” is an expectation of every Wesleyan student-athlete.

4. Issue of Race, Gender and Sexual Orientation
Team unity is an important ingredient in a successful athletic experience. Hurtful language or actions do not support the goal of team unity and should be avoided. I will be sensitive to the issues of sexual orientation, race and gender and will respect the dignity of my teammates, coaches and opponents.

5. Gambling
I understand the NCAA rule on gambling and the severe consequences that will result from the violation of the policies. I agree not to provide information to individuals involved in organized gambling, solicit or accept a bet on any intercollegiate team, or participate in any gambling activity that involves intercollegiate athletics.

6. Overnight/Host Responsibilities
I have read the policy governing the hosting of a prospective student and am aware that violations of this policy may result in the recruit not being able to matriculate at Wesleyan. Also, I understand that I will be sanctioned if I provide the recruit with alcohol or other illegal drugs.

7. Travel To and From An Athletic Contest
I have reviewed the travel policy in the (SAH) and understand that if I intend to not return with my team from the contest I must receive prior permission from my coach and complete and return the Permission To Not Travel With Team Form to the athletic director’s office.

8. Social Media
I understand that Wesleyan University student-athletes are representatives of the College and community. Also, I understand that the athletic department requires student-athletes to exercise good judgement in their use of social media websites and to conduct these activities in a responsible and respectful manner.

9. Access to Academic Records
I agree to allow my coach to have access to my academic records so he/she can accurately discuss my performance with me.
