SCIAC Swimming & Diving Parents, Fans and Spectators,

The SCIAC will again be utilizing the Brenda Villa Aquatic Center for our Swimming & Diving Championship February 21-24, 2018. We understand there is limited spectator capacity. However, as this is the only indoor facility available and has been endorsed by the SCIAC Swimming and Diving coaches and approved by the Athletic Directors as our 2018 site, we must make the best of the situation which provides the student-athletes with the high quality competitive environment for our championship.

We will do our best to accommodate those wanting to cheer on his or her student-athlete once capacity is reached. We are asking each team to organize and if capacity is reached we will allow spectators to “swap out” in order to allow a parent/spectator to watch a particular race. It is up to each institution to organize this and be able to communicate with their fans/spectators.

The SCIAC and host institution will provide passes that someone already inside can swap with someone unable to enter because capacity has been reached to allow that person into the facility for a particular race. Once that race is complete, the spectator will return to the lobby, return the temporary pass, and the original spectator will be allowed to re-enter. We hope this policy will allow a spectator the opportunity to watch his or her student-athlete compete, even though it might not be possible to remain in the building for the entire session.

The ticket policy will be the same as last year with it being first come first serve – and you must be present to purchase your ticket. Each session is $10.00. Military and seniors (55+) are $5.00 each session. Those having a SCIAC ID and children under 12 are free.

If you have any questions, please speak with your Swimming & Diving coach or Athletic Director.

Thank you,

Jennifer Dubow
SCIAC Executive Director
