Welcome to the ImPACT Baseline Testing program. In order for us to insure we get the best data possible it is important for you to follow these instructions. Having a baseline test gives your athletic trainer and team physician objective information about your current brain function prior to you sustaining a concussion. This test will help you get on the field as soon and as safe as possible following a concussion. It is important to take this test seriously and do the best you can, this will allow us to trust the information we get and this will get you on the field sooner. If we feel that the data isn't trustworthy then we will have to use other means to evaluate you and this may take longer.

Testing procedure:

1. Establish your environment: You should be in a quiet room with no outside distractions. Shut off all phones, TVs, radios, Ipods, etc., anything that may disturb your concentration while taking the test and, if necessary, put up a sign on the door Do Not Disturb

2. Log on to the internet and go to http://www.impacttestonline.com/elitesportsmedicine/ and click on Launch Baseline Test

3. You will then be prompted to enter a customer code, the customer code is 06AF9F46FC

4. Click on either English or Spanish

5. Read and click on Next

6. Read and click on Next

7. Then choose your organization from the picklist School/Organization (i.e. Boston Cannons). Then enter your birthday date.

Then follow instructions carefully throughout the rest of the test.

Thank you and best of luck in your season.
